MEL Incident IPR 14-256

Mount Polley Mine

LAT. 52.55639 LONG. -121.63556

August 4<sup>th</sup>, 2014 Incident Time 03:20 (*No Phone Call on MEL line*)

E-mail Notification – 07:04 (Mtn. Time), August 4<sup>th</sup>, 2014

07:04 – Received e-mail notification from Emergency Management with 4 updates attached to original e-mail of a tailings dam breach at Mt. Polley Mine in Likely (Quesnel), BC

07:19 – Called Steve Rothman (SI Kamloops) call went to voice mail (Full)

07:23 – Called George Warnock (SGI Prince George) and informed him of the incident, he will try to get a hold of Heather Narynski (GI)

07:29 - called and text Steve Rothman to call me back immediately when he received message

07:56 – Called Bruce Hupman because no one answering phones (Left Message)

08:03 - Called Emmanuel Padley (Kamloops) because I did not have Joe Nicholsons cell number, Emmanuel to call Joe N. and get back to me

08:07 – Called Rolly Thorpe to inform him of the incident

08:13 – called Joe N. (Kamloops) and left a message to call me back immediately

08:19 - E. Padley called back stating he could not get in touch with J. Nicholson either that I might have to get in touch with Lori Meade in PG

08:20 – Steve Rothman called I informed him of the incident and I had talked to George Warnock.

08:39 - Steve Rothman called back stating he had talked to George Warnock and they have a Helicopter waiting to do an Arial recon of the site. (Steve Stated he would call Rolly T.)

08:48 – George Warnock is on route to site 4 hrs ETA and in the Air around site.

08:51 – Informed Al Hoffman of the incident and what has happen to this point.

08:57 – Joe Nicholson called and stated that he has talked to Steve Rothman and was told to stay put.

08:58 – E. Padley called back to let me know he has talked to Steve Rothman and Joe Nicholson, I let him know that they had been in touch and thanked him for his efforts.

09:03 – Received updates from Emergency line (Emails) 14-256 updates 5, 6, & 7, Passed them to Steve and George.

09:06 – Receive updates 8 & 9 forwarded to S.R. and G.W.

10:10 - Received a call on the MEL phone by           apologising for not calling in the incident when it happened

10:39 – Received updated reports 14-256 #11 & 13 (MEL) e-mail stating some will be out of sequence. , Forwarded to S.R., G.W. & A.H.

10:48 – Sent Al Hoffman the updated reports on his request so he is informed of what is happening

10:56 – Evon (MEL) phoned to update status she is working on #10 update and will be sending it shortly.

11:04 – Aaron (MEL) phoned to update status with first nations, media release and bottled water use.

11:24 – Received updates 10, 12 & 14 Forwarded to S.R., G.W. & A.H.

11:40 – Ian (MEL) Called to inform about the debris flow heading towards Likely Bridge to possibly hit in 4-5 hrs. On the same call Aaron (MEL) was looking for someone to talk to in the Caribou district (Steve Rothman). The district Regional Manager from Interior Health was looking for someone with insight of the mining operation. Upgraded from Level 2 to level 3 status.

11:59 – Received update report # 15 Forwarded to S.R., G.W. & A.H.

12:16 – Received update #15, Forwarded to S.R., G.W. & A.H.

12:17 – Called Steve Rothman so he knew to call Regional Cariboo District Manager. Call was cut off.

12:22 - E-mail from Heather Narynski stating she would like to be emailed all further updates and that her and Chris Carr will be heading to Mt. Polley tomorrow.

12:31 – Emailed Heather Narynski and Chris Carr (Geotechs) all information updates so far.

12:41 – Updated sent but no attachment

12:45 - update #17 Received and forwarded to Steve, George, Heather, Chris and Al

13:09 – Told by Al Hoffman to add Tania Demchuk and Kim Bellefontaine to distribution list.

13:32 – Received a call from (MEL) that an update will be coming #18 has not come yet

14:09 – Received a call from (MEL) that an update will be coming #19 has not come yet

14:20 - Received a call on the (MEL) line Kelly Doll - conservation officer wanting to hop on the Helicopter with Steve and George, gave him Steve's cell number to contact him for arrangements.

13:05 - received a Call and E-mail with updates #18, #20 & #20(Amendment) – still waiting for #19.

Forwarded to S.R., G.W., H.N., A.H., K.B., C.C., & T.D.

15:20 – Received update # 19 and passed it on to group

15:24 – Steve Rothman called in as he was going through Prince George. S.R. will be stopping in Williams Lake to go through video footage at the regional office.

15:29 – Received update #21, passed it on to group.

15:57 – Received update # 22, Passed on to group.

19:04 – Received updates # 23- #25, Passed on to group.

August 5<sup>th</sup>, 2014

07:31 – Received updates #26 - #32 No action required

10:27 – Received update # 33, Sent to A.H., S.R., R.T., K.B. & T.D.

11:42 – Received update #34 No action required

12:10 - Received update #35, No action required

15:21 – Received update # 36, No action required

17:48 – Received update # 37, No action required

August 6<sup>th</sup>, 2014

06:41 – Received updates #38 & #39, No action required

06:46 – Received updates #40 & #41, No action required

07:29 – Received update #42, No action required

10:38 – Received update #43, No action required

14:50 – Received update #44, No action required

Primary No : Business 250-790-2335  
Alt No :

This Update Logged : 2014-08-04 04:44  
EMBC Operations Officer : JIM

### Details :

Advised that one of the Fire Rescue members headed to the Ditch Road to assess the water accumulation between Hazeltine Creek and Quesnel Lake. The water is flowing 100' wide on Hazeltine creek and the ditch road. The regular width of Hazeltine Creek is 4' across. The main concern is the flow into Quesnel Lake via the Hazeltine Creek. Where the fire rescue member is standing is 1100 M from Quesnel Lake, and 9.2km from Cedar Point Park. Marie advised that Quesnel Lake is 1.2km wide. Fire Rescue members have also woken up campers and advised them to stay out of the water and not to drink it.

### Notification :

05:01 briefed Laurie Boyle MOE RO requested task value be increased to \$200.

### Details :

Requesting contact with Paul Airey (250-296-0007) Central Cariboo SAR. Transferred. Advised to request RCMP Air 4 which is on stand by in Kamloops (approximate ETA 1 hour) to pick himself, an RCMP member and someone from Mount Polley Mine to do a reconnaissance of the area and assess the downstream impact and possible consequences. A shift supervisor or environmental response officer should be on site. Directed Paul Airey to contact the ECC to advise before they launch. At this time the main concern is a keeping people (life safety) away from the increased water flow. There is no flood indication at this time. Requested Janis Bell CRD be notified/briefed until contact is made with Rowena Bastien EPC.

**Alt No :**

**This Update Logged :** 2014-08-04 08:49  
**EMBC Operations Officer :** ERIN

**Details :**

Calling to advise an EOC has been activated and a public info line (250-398-5581) is up and running. They have updated their EOC Ops Facebook Page to notify people via social media. As far as she is aware, Mount Polley Mine is in an aircraft doing their own assessment and the RCMP and Central Cariboo SAR are in their own aircraft also doing an assessment.

**Notification :**

08:49 briefed Michael Higgins DRM - advised to log all event details under DGIR (as opposed to generating an OTH for the EOC activation) in order to consecutively track information for cost recovery purposes. Advised this update could be passed via email only.

08:54 briefed Laurie Boyle EERO/MOE HQ

09:00 faxed MOE Prince George, MOE HQ & MCTS

### Details :

EMBC RDM North Update 1100 hours, 4 Aug - Higgins

Situation: STABLE

No injuries or private property damage has been reported.

No SOLE, Evac Orders or Alerts are anticipated at this time.

Technical evaluation of debris flow path and SAR/RCMP public safety reconnaissance ongoing.

CRD EOC activated and coordinating.

The CRD EOC in consultation with IHA, has initiated the dissemination of DO NOT USE public messaging while technical assessments of water quality are ongoing by IHA staff. Integrated mapping between the CRD EOC and the Mine site engineering staff is being done to determine the potential impact area.

Direct contact is being established (via ECC) between the CRD EOC and the following SME Task Force, for timely analysis and interpretation of heli-recce information and support consistency of downstream public alerting:

- EERO - Water dispersion modelling support
- IHA - Environmental Officer - Public Health orders and Warnings
- Inspector of Mines - Contents and properties of effluent

Watercourse observation points are being established with SAR assistance to determine the migration of effluent towards the major water bodies while reconnaissance is underway.

Additional information will be provided as it is obtained from the CRD EOC.

Next anticipated update 1300 hours, 4 Aug unless new additional information is gained or the situation deteriorates.

**Details :**

Please note the clarification of the IHA role in this DGIR.

I just wanted to make sure that IH's role with this is clear as the attached update implies that IH is currently testing which we are not doing. The Do Not Use is coming from the CRD EOC, which we support.

Interior Health staff are available to provide review and comment on water quality information provided by the MoE and Polley Mine staff. They will also help in drafting and distribution of health information through their communications department and website. IH Environmental Health Officers will be following up with any impacted community or small business water systems (i.e. Those permitted under the Drinking Water Protection Act) to confirm their respective Emergency Response Plans are being rolled out.

RDM North Update 1800 hours, 4 Aug - Higgins

Mount Polley Mine Incident (near Likely, BC) - Situation: STABLE

EMBC - 1700 hours - Coordination Call for Cariboo Regional District (CRD) Emergency Operations Center:

- No injuries or private property damage has been reported. Action: Public safety focused reconnaissance has transitioned to residential outreach and distribution of coordinated messaging.
- No SOLE, Evac Orders or Alerts are anticipated at this time. - Action: Mt Polley Mine Operations staff will maintain observation of dam and lake level sites for safety and downstream alerting.
- Mount Polley Tailings Pond breached, contents still spilling - Action: Precautionary water usage ban has been extended to Quesnel River system to Fraser River for shallow wells and surface river water.
- MOE, Northern and Interior Health will coordinate water quality testing regimes. Mount Polley Mine will provide chemical compositions of pre incident tailing source water. - Action: IHA supports a precautionary water usage ban until water quality analysis is complete. CRD coordinating Agency and LA public messaging.
- EM Status: CRD EOC opened at Level 2 - CRD and Mount Polley Mine are discussing the use of three potable water tenders to support affected residents within CRD.
- Ministries and Agencies: Interior Health, RCMP and SAR collocated in CRD EOC - Williams Lake, MOE ERRO Team has arrived and deployed to operational area to begin water quality testing.
- Relevant Provincial and Federal partners are engaged. AANDC is aware of FN contacts that may require CRD information and local updates.
- EMBC coordination call scheduled for 1300 hours, 5 August in support of ongoing incident information validation and sharing.

Additional information will be provided as it is obtained from the CRD EOC.

Next anticipated update 1500 hours, 5 August unless new additional information is gained or the situation deteriorates.

**Notification :**
