Re: Test of the ERPR for the closed Giant Nickel Property

Robbin Harmati,

On December 1, 2014, the Giant Nickel Emergency Preparedness and Response Plan (“EPRP”) was tested to assess its completeness.

The Test

All Government Agencies and Emergency contacts listed with in the EPRP were contacted to ensure accuracy of the contact information.

Gaps in the Test:

- Contact information originally included in the EPRP was not accurate. The correct contact information was updated.

Lessons Learned:

- Review of contact information should be completed annually to ensure accuracy

Thank you,

Kerri Harmati
